Climate Recon 2050 project is financed by EUKI, a project financing instrument by the Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMUB). Its implementation is supported by Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ). It is the overarching goal of the EUKI to foster climate cooperation within the European Union in order to mitigate greenhouse gas emissions. It does so through strengthening a cross-border dialogue and cooperation as well as exchange of knowledge and experience.

NOTE:

This workshop will take place back-to-back with the 2nd meeting of the Policy-Maker Platform (October 10).

Topics to be addressed:

- Interactions and linkages between the EU and Member States
- Relationship of 2030 NECPs to 2050 LTS: potential synergies and conflicts
- How can policy-making and long-term scenario modelling best interact?
- Stakeholder engagement - benefits, challenges, best practice

OUTLOOK:

3rd meetings of the Technical Dialogue and the Policy-Maker Platform to take place in February/March 2019 at the EEA in Copenhagen – dates will be available soon.

Topics to be addressed:

- Going carbon “neutral”: options for and implications of “negative emissions”
- Anticipating economic impacts: proactive transition strategies (and modelling distributive effects)
- Governance of long-term strategies: procedures for implementation, monitoring and review
